

Drug Prevention Is About Life... We're About Drug Prevention

Now, more than ever, children need the education and support to keep them away from drugs and the heartbreak it brings. Your donation to the Pathway To Recovery Annual Appeal makes certain they get that support. This year you can also help by adopting a school or a classroom. It's a special way to help a child who is special to you. You can also support the college education of a member of our Student Board of Directors through your donation to the Laura Rutkowski Memorial Scholarship Fund. Whatever you give will be an investment in our children and their futures. Thank you for your support and your belief in our kids.
